Subject: RM update for Shiloh

Attachments: Charlie Keegan.vcf; COC 014 (Mound 6 & 7 TCLP)(North Pile 2 East & West TCLP)(3062944).pdf

Chris.

Morning. I believe I overlooked sending you the attached report. Awaiting START PCB results for North Pile 2 N & E. ALS is working on providing us a proposal to do the UHC analysis which could take 2 to 3 weeks to complete. I hope to have the proposal from them Monday.

T&D schedule for this week.

Tuesday 10/22: 2 PCB articles & soil roll offs will be picked up for disposal at CWM Emelle

Wednesday 10/23: 2 trial dump trailer loads will be loaded from Pile 2 for delivery to US Ecology (USE) York, PA

OPS

Monday, Place delivered rock in truck entrance, start excavation on road north of pile 2 pending PCB data. No data continue excavation in Area 7.

Tuesday, Ship the 2 roll offs, weigh out at Elite, continue excavation in Area 7 or road north of pile 2

Wednesday, install 2 water treatment systems RW 00 & 001, load 2 dump trailers from Pile 2, weigh out at Elite continue excavation

Thursday, Continue excavation, secure site for demobe

Items to discuss this week

- 1. Future site ops
- 2. UHC analysis
- 3. Budget
- 4. Larger excavator
- 5. Screening equipment to process soil

Don't mean to bother you just want you to know what is in my head for Shiloh this week. Enjoy the day, safe travels and we'll see you tomorrow.
